Abstract

An abstract of less than 150 words.

0.1 Introduction

Introductory section which may include references in parentheses (**???**), or cite a reference such as (**???**) in the text.

0.2 Section title in sentence case

This section may contain a figure such as Figure 1.

Figure 1: The logo of R.

0.3 Another section

There will likely be several sections, perhaps including code snippets, such as:

```
x <- 1:10
plot(x)
```

0.4 Summary

This file is only a basic article template. For full details of *The R Journal* style and information on how to prepare your article for submission, see the Instructions for Authors.

0.4.1 About this format and the R Journal requirements

`rticles::rjournal_article` will help you build the correct files requirements:

- A R file will be generated automatically using `knitr::purl` - see https://bookdown.org/yihui/rmarkdown-cookbook/purl.html for more information.
- A tex file will be generated from this Rmd file and correctly included in `RJwapper.tex` as expected to build `RJwrapper.pdf`.
- All figure files will be kept in the default rmarkdown `*_files` folder. This happens because `keep_tex = TRUE` by default in `rticles::rjournal_article`
- Only the bib filename is to modifed. An example bib file is included in the template (`RJreferences.bib`) and you will have to name your bib file as the tex, R, and pdf files.
